

Non-conductive
(Brush Seaters sold separately)

See Brush Seaters - Pg. 12

The Brush Seater Holder adds an element of safety when seating brushes while the motor is running. The non-decreasing length of the holder helps keep fingers away from rotating equipment and possible shock is reduced because the holder is non-conductive. This sheath also provides additional support to the relatively fragile seater material.

I.D. Dimension	Catalog Number
1/4" x 1/4"	BRHDX13
1/2" x 1/4"	BRHDX12
3/8" x 3/8"	BRHDX15
1/2" x 1/2"	BRHDX09
5/8" x 1/2"	BRHDX28
3/4" x 1/2"	BRHDX08
3/4" x 5/8"	BRHDX07
1" x 1/2"	BRHDX06
1" x 1"	BRHDX16
— Standard length is 5" —	
— 10" & 15" lengths available — (At Additional Cost) (To order longer lengths: Add "10" or "15" to above part numbers.)	

Brush Seaters with Handles

Used to seat larger brushes or clean commutators where a sturdy handle is required for safety and durability. Five grades are offered, see pg. 12 for available grades.
