Bearing Heaters

Two models to make your bearing installation jobs easier. Lightweight, portable, and easy to operate. No need to demagnetize your bearings after heating.

The "Super" Model is equipped with a 250° F pre-set thermostat to prevent overheating.

Furnished with a 250° F temperature indicator crayon.

Model C:
Handles light to heavy-duty bearings.

"Super" Model:
Shown in use. Thermostat atop typical bearing, monitors heat-up. Pre-set at 250° F.

Model	Bearing Sizes	Dimensions		Net Weight	Shipping Weight
